COMMENTS FROM THE TOWN MANAGER'S OFFICE

Property tax receipts to Oct. 24th total \$60,592.58 as compared to \$53,600.35 on the same date last year, an increase of \$5,972.23 over last year, which is most encouraging.

The total cost of the Town Road Improvement Project on the Grover Hill Road is \$5,585.80. There is an unexpended balance of \$561.51 to be carried forward to 1962.

The total cost of the rebuilding of the Chapman Street Sewer and street was \$7,591.16. The appropriation was \$7,000, therefore there is an overdraft of \$591.16 in this account. The total cost of rebuilding the sewer was \$3,762.25, the street \$3,828.91. The overdraft is may be a result of too conservative an estimate of the cost of the project at the start.

The cost of replacing the 6" sewer with an 8" sewer and manholes was \$2.90 per lineal foot, which cannot be considered excessive in view of the fact that it was replacing an existing sewer which is more expensive than laying an entirely new line.

The cost of the soil cement street was \$1.15 per square yard which is a good average. As a matter of comparison, the Tyler Street project in 1957 cost \$1.42 per square yard. However that project required more preliminary work prior to applying the cement, resulting in the increased cost per square yard.

Sincerely,
Harold L. Bean

HOSPITAL FUND REACHES \$400,974—PUBLIC CAMPAIGN STARTS TODAY

The public campaign for the Rumford Community Hospital building fund opened last night with the announcement that \$400,974 has already been obtained by the advance committee. The total includes a gift of \$228,375 turned over to the fund last night by the Oxford Paper Company.

More than 200 public campaign workers attended last night's meeting at the State Armory and responded enthusiastically when William H. Chisholm, president of the Oxford Paper Company, announced his firm's gift.

"We have always felt a strong obligation to do our share in preserving and improving the hospital," Chisholm said. "With these recommendations in mind, it gives me great happiness and pride to offer the gift of the Oxford Paper Company to the Rumford Community Hospital."

"The pledge which I make reflects the interest and good wishes of the Company," he continued, "and with it goes our prayer that it will help to make the service of our hospital greater and even more beneficial than in the past. All of us who have an association with the Oxford Paper Company hope sincerely that this contribution will encourage others to rally to the aid of a service which is indispensable but presently inadequate."

Bethel Dental Clinic to Open Nov. 8

Wednesday, Nov. 8, will mark the opening of the Bethel Health and Service Council Dental Clinic.

The Clinic will be in operation two mornings monthly through April, and once in May, according to present plans. Children in Grade 2 of the schools of Bethel, Greenwood, and Newry are being selected to participate in this first year's program. The Clinic will be held at the offices of Dr. John Trinward. Dr. Trinward will be assisted by Miss Jane Greig, registered dental hygienist, in planning and administering treatment.

Mrs. Natalie Timberlake, registered nurse, will be in charge of scheduling appointments and other business concerning the Clinic. Any inquiries should be made directly to her at all times.

The patients for this clinic are being selected from results of the survey conducted recently by Miss Marjorie Linseott, R. D. H., from the State of Maine Department of Health and Welfare. The goals of the clinic program this first year

are to give direct care to the small number of children who can be helped on available funds. It also hopes to give indirect help to many other children by stirring up pride and satisfaction in having pretty, healthy mouths.

It will be of interest to local people to know that one morning monthly all of the clinic facilities are being donated by Dr. Trinward while the other morning is to be financed by the Dental Health Committee budget at minimal operating cost. Mrs. Timberlake and her committee members are entirely non-paid volunteers on this project.

There may be some families who would like to apply to Mrs. Timberlake for further information as to whether or not they have an eligible child. These inquiries would be most welcome as selection depends not only upon financial status but on the willingness of the family to participate fully in the child's program. A registration fee of one dollar is the only cost to the family if the application is accepted.

Explain Remedial Reading Program

The special reading program is designed to help those children who are not reading as well as can be expected of children with the degree of ability we believe they possess. Any child who is reading at 80% of his potential capacity, or less, can profit by special help.

The term "Remedial Reader" applies to a child who is in third grade or above, who is reading at least two years below grade level in reading ability. Obviously a child who has not yet entered third grade cannot be a "remedial case," because two years back would take him to a point where he is not expected to read anyway.

Other terms that are often confused are "slow-learner"

and "mentally retarded." The term "slow-learner" simply means that thought processes take place more slowly than those of some other child. Some children also run slower than others. Such a child must move through the required program at a slower rate than other children. He will go just as far in the end, it will take him a little longer.

Since we have no program for the mentally retarded they attend classes with the two other groups. A child who is mentally retarded can not be expected to attain as high a degree of academic achievement as the others mentioned above. The handicap of mental retardation is usually with the child at birth. It can be acquired—continued on page four—

STATE POLICE WARN OF CARBON MONOXIDE IN AUTO EXHAUST

The State Police present these facts on deaths from carbon-monoxide, the so-called creeping killer, as pointed out by the National Safety Council:

1. Each year more than 300 persons are victims of the poisonous gas. This includes motorists who warm up their cars with garage doors closed, auto mechanics who repair cars in closed garages, and people who sit in parked cars and leave the motor on to keep heater or air-conditioner operating.

2. About fifty persons a year, as revealed by medical examiners' reports or autopsies, are victims of carbon monoxide while their car or truck is traveling the highway.

Though statistics may show relatively few lives lost in moving motor vehicles from this cause, most safety men say the total number of deaths isn't clearly known. One such official says: "We suspect that many one-car accidents, rear-end collisions, and accidents where the driver falls asleep are caused by carbon monoxide."

Carbon monoxide, the silent killer, causes more deaths than any other poison, according to the Council. It is colorless, tasteless, nonirritating and almost odorless. It can kill within minutes, depending on the concentration breathed into the lungs. Running the motor of a car for five minutes in a garage with the doors shut may mean death.

The Council lists these symptoms of carbon monoxide poisoning: tightness across the temples, headache, weariness, weakness, dizziness, nausea, loss of muscular control and increased pulse and respiration. If you're driving at night and the darkness seems blacker than usual, the glare of oncoming lights brighter than usual, carbon monoxide may well be the cause.

"Fresh air," the Council says, "is the one sure way to

prevent carbon monoxide poisoning." Checking muffler or exhaust pipe will enable you to detect danger before it is too late. Other suggestions from the National Safety Council: "1. LETTER TO THE EDITOR

What kind of Selectmen do we have in Bethel? I wonder if they know the difference between traffic hazard and real traffic congestion, and why they are penalizing a small business? If they are trying to relieve traffic congestion, why not have Main Street restricted to parking on one side of the street only and not discriminate against a small business which is on Lower Main Street where the traffic is not half as congested as it is in front of the post office and larger stores adjoining. At times there are large trailer trucks parked across Main Street for as much as 1/2 hour at a time. What is the difference if ordinary cars are doing business on Lower Main Street? I can name several persons who had their cars damaged in front of the post office. In fact my own car was damaged while parking in front of the A. & P. Store.

Let's make Main Street a safe street to drive on and give the fire department a chance to get their equipment going, which is almost impossible while cars are parked on both sides of Main Street. So why are the Selectmen of Bethel picking on one small business and don't remedy the real bottleneck, or are they afraid of larger business interests being hurt? In my last talk with the Selectmen they all acknowledged that the real traffic congestion is in front of the post office section, but nothing has been done so far. I wonder why??

ed after birth through brain injury.

The fact that a child is attending the special reading classes does not imply that he falls into any one of the categories above mentioned. It simply means that we feel that he has the potential ability to profit by extra instruction in reading. A few weeks of individual attention may give him a boost over a hurdle that he might not be able to accomplish in a large reading group. Neither does his placement in such a class guarantee that he will be able to read like a "whiz" when he returns to regular instruction. We hope to help him to succeed to some degree.

Acts 23:7-11

I will pour out my spirit upon all flesh; and your sons and your daughters shall prophesy, your old men shall dream dreams, your young men shall see visions, (Joel 2:28.)

In his mind's eye, Christopher Wren could see the majesty of St. Paul's Cathedral long before the first stone was laid. Ferdinand de Lesseps saw the vision of the Panama Canal, linking the Atlantic Ocean with the Pacific, long before it became a reality. Isaiah said, "In the year that king Uzziah died I saw also the Lord." The "year" of that vision turned Isaiah into a prophet.

Jesus said, "Blessed are the pure in heart: for they shall see God." The vision of God has streamed through different windows and greeted the soul

of man in various ways. Men like Saul of Tarsus have recognized Christ's call and offered themselves upon the altar of service to God.

God has His purposes and His witnesses in every generation. He grants the vision of His glory to men that they may lead others into His marvelous light.

PRAYER: Lord God, who revealest Thyself to men, we pray that Thou wilt grant unto us the vision of a world redeemed through Thy Son, Jesus Christ our Lord. Keep us, we pray, obedient to that vision, for His blessed name's sake. Amen.

Thought For The Day

When we see the glory of God, we see also men in desperate need of Christ, the Saviour. —David Irvine (New Brunswick)

V. A. NEWS LETTER

Some 500 Maine veterans are expected to be in training this fall under the Korea GI Bill, more than six years following the close of the Korea Conflict, the Veterans Administration predicted today.

An additional 25 disabled Korea veterans are expected to be taking vocational rehabilitation training under a special act for the seriously disabled.

The peak of the Korea veterans training programs was reached in the fall of 1957.

A smaller and newer educational assistance program for orphans of deceased servicemen and veterans, whose deaths were the result of their military service, is gaining momentum. The VA predicted that about 100 orphans would be enrolled in Maine this fall under this program. More than half of the veterans in training this fall will be in the nation's colleges and universities, and another one-third will be in schools below the college level. The rest will be taking on-the-job or institutional on-farm training.

For most Korea veterans, the

Today's need for spiritual discernment will be emphasized Sunday at Christian Science church services.

Scriptural readings in the Lesson-Sermon entitled "Adam and Fallen Man" will include these words of St. Paul (I Cor. 2).

"Now we have received, not the spirit of the world, but the spirit which is of God; that we might know the things that are freely given to us of God. Which things also we speak, not in the words which man's wisdom teacheth, but which the Holy Ghost teacheth; comparing spiritual things with spiritual. But the natural man receiveth not the things of the Spirit of God: for they are foolishness unto him: neither can he know them, because they are spiritually discerned."

vocational rehabilitation program will end on January 31, 1964; and for those training under the GI Bill, the program ends January 31, 1965.

The orphans' educational assistance program will continue for many years, and is expected to reach its peak in the middle 1960s.

Originally enacted for the assistance of orphans whose parent's death was the result of service in the Spanish-American War, World War I, World War II or the Korea Conflict, the law was later broadened to include orphans of deceased servicemen or veterans with peacetime service since September 16, 1940.

These orphans may be eligible, however, only if the parent's death was the result of actual performance of military duty during peacetime.

HEAD - STOWELL

The West Bethel Union Church was the scene of an attractive wedding at three o'clock, Saturday, Oct. 21, when Sara Stowell, daughter of Mr. and Mrs. George P. Stowell, Jr., became the bride of David A. Head, son of Mr. and Mrs. Paul B. Head.

The double-ring ceremony was performed by the Rev. Joseph Bradley, pastor of the West Bethel Church, with traditional wedding music played by Miss Geraldine King.

The bride, given in marriage by her father, wore a floor length gown of white nylon organza with short puff sleeves and a sweetheart neckline trimmed with seed pearls and sequins. Her fingertip veil of nylon net fell from a crown of seed pearls and she carried a cascade bouquet of shattered carnations.

Mrs. Keith Bartlett, Newport, R. I., a sister of the bride, served as matron-of-honor, wearing a gown of forest green satin and velvet with a matching headpiece and carrying a colonial bouquet of shasta daisies.

Acting as bridesmaids were Miss Gloria Burris and Mrs. Bartlett Hutchinson, both of Boston, friends of the bride, and Miss Mary Head, Bangor, sister of the groom. They wore

identical short gowns of hot pink satin with matching headpieces and carried colonial bouquets of shasta daisies.

Arthur Head served as best man for his brother, and the ushers were Bradley Benson and Eldred Rolfe, friends of the groom.

Following the ceremony, a reception was held at the Pleasant Valley Grange Hall for about 200 guests, among whom was the great-grandmother of the bride, Mrs. Frank Cummings of Bryant Pond. Mrs. George Stowell, III, and Miss Martha Stowell presided at the gift table, while Mrs. Michael Stowell and Mrs. William Dickson dipped punch. The wedding cake, cut by the bridal couple, was served by Mrs. Dwight Merrill. Miss Rosemary Stowell circulated the guest book.

Following the reception, the newlyweds left for a short honeymoon of undisclosed destination, the bride wearing a beige wool suit with brown accessories and a corsage of yellow miniature carnations. They are now residing in West Bethel.

The bride is a graduate of Gould Academy in the class of 1959 and Burdett Business College, 1961. Mr. Head is a 1958 graduate of Gould Academy and is presently employed with his brother in logging business.
